The Arizona Department of Juvenile Corrections (ADJC) shall have readiness for release criteria and transition planning for all juveniles. This system shall ensure proper identification of transition needs and a checklist of readiness for release for all juveniles while in secure care. Juveniles shall be properly prepared for transition as demonstrated by completion of Stages of Progress I through IV of ADJC System for Change treatment program. Juveniles who have successfully completed their readiness for release criteria and transition planning shall be moved to the community according to needs and special circumstances.
